

NEXColorTM

OPENSOURCE UNIVERSAL COLOR LIBRARY

Powered by: Print N' Pack Foundation - IMEA

Introducing NEXColor: The First Open-Source Universal Color Library

Colors are the foundation of creativity, and now, with NEXColor, the world's first open-source and universal color library, professionals across industries can access a standardized, license-free color reference system like never before. This is developed by Print N' Pack Foundation - IMEA, a leading printing professional forum from the Middle East.

NEXColor is a versatile, industry-wide solution designed for printing, packaging, graphic & web design, paint, manufacturing, automobile, fashion, beauty, and more. Featuring an extensive palette of 1,056 carefully curated colors, each shade is uniquely named and assigned a NEX color code, ensuring easy communication and consistency across different sectors.

What makes NEXColor revolutionary?

- **Universal & Open-Source:** Free to use across all OEM devices, without licensing restrictions.
- **Comprehensive Digital Library:** Includes an Adobe Photoshop Library (ACB - Adobe Color Books) for seamless integration into Photoshop and Illustrator.
- **Accurate Color Representation:** A digital PDF guide provides RGB color codes, which can be effortlessly converted into CMYK and LAB within design software.
- **Cross-Industry Usability:** Ideal for professionals in design, printing, manufacturing, and beyond.

Whether you're a designer, manufacturer, or artist, NEXColor simplifies color communication and ensures precision and consistency across all creative and production processes. Experience the future of universal color standards—available to everyone, everywhere!
